[ ] Met with Senator Karl Mundt and advised that the 140 millimeter Soviet rocket mortars being discussed in the press yesterday and today had no relationship to the matters covered by the Director in the last briefing. I advised further that Mr. Woodruff, Senate Appropriations Committee staff, would have a paper later in the day, which is being prepared by DOD for the Committee, and that Woodruff would address himself to the details of that matter. The Senator was most appreciative and thanked me for the Agency's assistance. He also noted that he is looking forward to the breakfast Monday morning.

[ ] Delivered to Mr. James Delaney, Office of the Speaker, a letter of transmittal and a copy of the proposed Agency legislation. Mr. Delaney advised that it would be included in the day's business. He took the occasion to comment on the Agency's programs with regard to NSA and noted that he wanted to pass his personal compliments to the Agency for this and other activities and hope that we could bear up under these types of attacks. I thanked him for his very kind remarks.
